

RESUME-2024

Hi There, I'm Ahab Tayebwa

— Software & Web Developer

www.ahabtayebwa.com

About Me

I am a full stack self-taught Software Developer With a strong passion and experience for web development and a solid foundation in front-end technologies such as HTML, CSS, JavaScript, and Reactjs.

I have experience in back-end development technologies, such as PHP, PYTHON, and mySQL which has enhanced my understanding of the full web development stack. Beyond technical skills, I possess strong problem-solving and analytical abilities, allowing me to approach challenges with a systematic and creative mindset.

CSS

SQL(MySQL)

Photoshop

What I do

UX Design

Creating user-friendly digital experiences through research and design principles.

Development

Bringing designs to life with coding, using the latest technologies and ensuring responsive and dynamic websites.

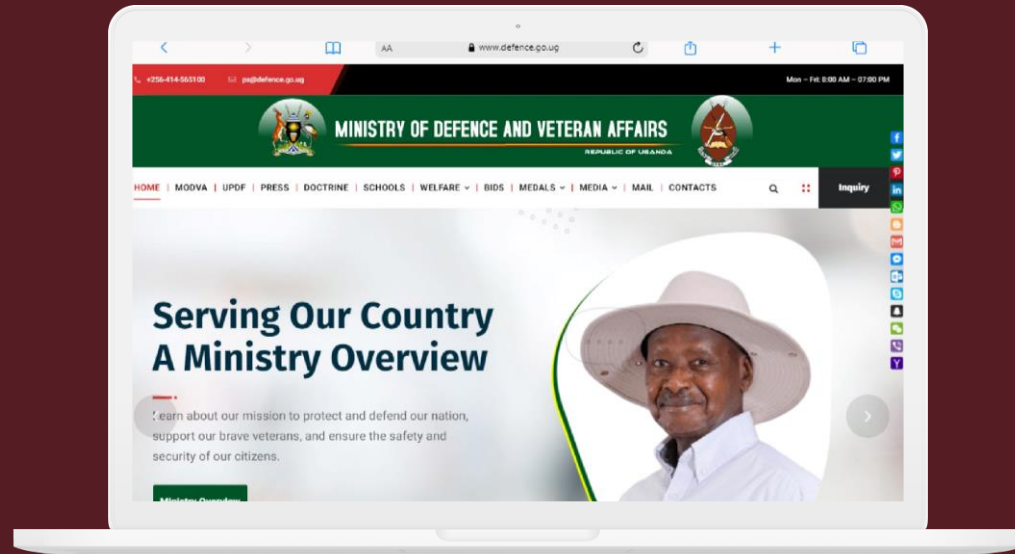

SEO

Optimizing online content for search engines to improve visibility and drive organic traffic.

Website

Case Study

Republic of Uganda

Ministry of Defence and Veteran Affairs

For this project, I successfully designed and developed a comprehensive platform that showcases the ministry's leadership, information about the Uganda People's Defence Forces (UPDF), and veteran programs. The website aims to provide visitors with valuable insights into the ministry's structure, key personnel, and the services and programs available for veterans.
